

IPUATC is glad to organize a webinar on **Hot Melt Adhesives (HMA)**

**14th May 2020, 11.30 am** India time.

**Topic-** Imagine the possibilities: Adhesive solutions from BASF. The webinar will focus in details about TPU technologies and their usage in high performance adhesives.

**Presenter: Mr. Morris Mao**, Global Technical sales-TPU Adhesives, BASF-Taiwan

---

**Imagine the possibilities of Elastollan® TPU**  
**- TPU Hotmelt and solvent-based adhesive**

BASF, as a solution provider of TPU, we can offers not only high melting but also low melting TPU adhesive, which has been applied in various industries and applications.

Today, we kindly invite you to explore the beauty of our low melting TPU together. You can expect to learn the both basic TPU knowledge and market intelligence. Looking forward to your attendance, thank you!

**Presenter:**

- Morris Mao [morris.hy.mao@basf.com](mailto:morris.hy.mao@basf.com)
- Global Technical Service - TPU Adhesive
- BASF Taiwan, BTCH (TPU adhesive production site)

Kindly Register for the webinar by just sending a mail to [snehalata@ipuatc.com](mailto:snehalata@ipuatc.com) by **13th May 12 pm.**
